

Let 90 Degree Benefits Protect Your Company From Rising Prescription Costs

With pharmacy costs rising at an astonishing rate, it's time for a new way to protect your self-funded plan. **Rx WatchDog delivers efficient and effective pharmacy cost containment solutions to employers of all sizes.**

Watching Out for Your

Bottom Line

Rx WatchDog **saves groups 25% to 30%** or more off their prescription costs. Members will be better informed about pharmacy options and services, empowering them to make educated prescription decisions.

Time

Our program is all about making things easier. There are no complicated changes to how your drug card works and **no extra red tape**, just a plan that is efficient and effective.

Peace of Mind

Our team of Pharmacy Consultants and Registered Nurses stay up-to-date on new drugs, changes in dosages, delivery methods and fluctuations in market prices. We monitor your plan with support from **medical professionals**, so if high prices arise, they can be addressed immediately.

Cost and Access

With over 70,000 directly contracted pharmacies and 3,000 plus specialty and compound pharmacies in the network, **employers get better prices** without sacrificing convenience and availability for members.
